

Diesel Mate Clear Premium 2000™ Diesel Fuel Improver

Year round diesel fuel conditioner designed to improve the performance of on-road, off-road and marine diesel fuel.

Improves engine performance, lengthens equipment life and reduces emissions.

EXCEEDS THE NATIONAL CONFERENCE OF WEIGHTS & MEASURES STANDARDS FOR PREMIUM DIESEL FUEL REQUIREMENTS

Provides Superior Fuel System Protection for:

- Fuel Distributors
- Excavation & Demolition
- Utility Construction
- Concrete & Asphalt Paving
- Federal, State & Local Agencies
- Jobbers
- Universities & Hotels
- Power Generators
- Marine

Typical Treat Rate
1 gal : 2000 gal

Cleans Injectors & Pumps — powerful new detergent cleans fuel pumps, injectors, and fuel lines and disperses contaminants to prevent the formation of gum, varnish, lacquer and carbon coke. Meets the latest Cummins L-10 injector cleanliness test.

Improves Mileage — detergents that keep fuel systems clean and functioning properly and cetane improvers that provide more complete combustion.

Prevents Gelling — lowers fuel pour-point by up to 20°F.

Boosts Base Cetane — improves ignition, cuts starting time, and reduces detonation wear by raising Cetane levels.

Reduces Friction and Wear — contains AA-93™, a polymeric anti-wear additive that protects injectors and pumps from both mechanical and chemical wear.

Separates Out Water — demulsifiers separate water from fuel so it can be removed from storage tanks.

Reduces Oxidation During Storage — oxidation inhibitors stabilize fuel during storage.

Prevents Rust & Corrosion — contains rust and corrosion inhibitors that protect storage tanks, on-board fuel tanks, fuel lines and engine components.

Contains Metal Deactivators — deactivates trace amounts of heavy metals, particularly copper. This prevents them from acting as catalysts that promote varnish and gum.

Reduces Emissions — helps operators comply with clean air laws by promoting cleaner fuel burn to reduce smoking, soot and vapor exhaust.

Contains No Alcohol
